

→ Aluminum wire

→ Packing in coil

**CONDUCTOR :** Solid , Soft Aluminum wire  
Size 4 & 6 AWG.

**APPLICATION :** Generally used in overhead transmission and distribution line construction to mechanically secure components such as conductor to pin insulation.  
Also used for grounding applications in line construction

**REFERENCE STANDARD :** MEA , ASTM B-609

SIZE  (AWG)	Conductor  Diameter of wire  (mm.)			Weight (approx.)  (Kg/Km)	Breaking strength  (kgf)	Packing  (kg)
	(Min.)	(Max.)	(Approx.)			
	6	4.080	4.150			
4	5.140	5.240	5.189	57	167	25/C

C:Packing in coil.
