

CONDUCTOR : Solid , Soft Aluminum wire
Size 4 mm.

APPLICATION : Generally used in overhead transmission and distribution line construction to mechanically secure components such as conductor to pin insulation.
Also used for grounding applications in line construction

REFERENCE STANDARD : PEA , ASTM B-609

SIZE (mm.)	Conductor Diameter of wire (mm.)			Weight (approx.) (Kg/Km)	Breaking strength (kgf)	Packing (kg)
	(Min.)	(Max.)	(Approx.)			
4	3.96	4.04	4.00	34	82-105	25/C

C:Packing in coil.
