

CONDUCTOR : Solid , Soft Aluminum wire
Size 16 mm²

INSULATION : Polyvinyl Chloride (PVC)

APPLICATION : Generally used in overhead transmission and distribution line construction to mechanically secure components such as conductor to pin insulation.
Also used for grounding applications in line construction

REFERENCE STANDARD : MEA , ASTM B-557/B557M

SIZE (mm ²)	Conductor Diameter of wire (mm.)			Weight (approx.) (Kg/Km)	Ultimate tensile strength (Maximum) (kgf)	Packing (m)
	(Min.)	(Max.)	(Approx.)			
16	4.386	4.470	4.43	70	120	100/C

C:Packing in coil.
