

- CONDUCTOR :** Solid , Soft Aluminum wire  
Size 4.0 mm
- INSULATION :** Polyethylene (PE)
- APPLICATION :** Generally used in overhead transmission and distribution line construction to mechanically secure components such as conductor to pin insulation.  
Also used for grounding applications in line construction
- REFERENCE STANDARD :** PEA , ASTM B-557/B557M

SIZE  (mm)	Conductor  Diameter of wire  (mm.)			Weight (approx.)  (Kg/Km)	Ultimate tensile strength (Maximum)  (kgf)	Packing  (m)
	(Min.)	(Max.)	(Approx.)			
4	3.96	4.04	4.00	48	138	100/C

**C:Packing in coil.**
